- Analytics
- Custom APIs

Optimize

- A/B Testing
- Conversion Rate Optimization
- Performance Monitoring
- Data Analysis & Reporting
- Continuous Maintenance
- Media Buyer Collaboration
- ROI Improvement

Proposed Strategy

Executive Summary

Key points:

- Profitable Media must ensure that Personal Development School is prepared for both the USA Stripe MID completion on February 10th and the launch of Thais' appearance on the Jay Shetty podcast launch on February 25th. We'll ensure all conversion capture systems are functioning optimally and are ready for an increase in traffic and sales volume.
- Our promise is to ensure that Sjordland and Thais don't have to spend any time auditing or investigating technical issues or debts. Profitable Media will provide the technical expertise to eliminate this headache from Sjordland's already busy schedule. We'll assign our team to review your analytics reports as well, to streamline what data is actually important to you so your dashboard is faster and more effective to use.

The Tech Plan provides ongoing technical support and proactive monitoring across all high-leverage funnels. It ensures:

- Minimize downtime and rapid response to keep revenue-generating funnels operational (target: 99%+ uptime)
- Automated and manual QA checks for functionality, UX, and UI
- Proactive detection and resolution of payment failures, bot issues, and system bugs
- Preparation for migration to Sticky.io and/or future CRO initiatives

Recommended Starting Package: 100 hour tech plan

Proposed Services

Product	Total
We will setup Customerlabs to track the following events: Visits, CTA clicks, VSL watch % (25, 50, 75, 100), Order initiated, Order Placed, Upsell #1 Sale, Upsell #2, Upsell #3). We will store this data in clickhaus as well, along with Meta/Google Campaign data. We are not starting with any visualisation layer initially, but we plan on using Metabase for that when the need arises while collecting data from the get g Client pays for Clickhouse (~\$60/m) and Customerlabs. CRO Testing & Funnel Monitoring We will setup Mida.so/convert.com for non-server side based testing with tracking of the following goals: CTA clicks, VSL watch % (25, 50, 75, 100), Order initiated, Order Placed, Upsell #1 Sale, Upsell #2, Upsell #3. We will also setup full funnel automated testing with real transactions being performed, and provide a dashboard URL to monitor funnel uptime etc. Client pays for CRO platform

Payment Schedule

Payment	Day
---------	-----

Project is initiated with a countersigned proposal. Complete payment is due upfront and balance must be paid in full prior to commencing work.

Day 1

Terms & Conditions

Summary:

Profitable Media will manage the Client's hours at its discretion, with the assumption that the hours will be spread out across the month in most cases. If the Client's needs in any one month exceed the hours assigned for that month, Profitable Media will advance hours from the next month's allotment. In the event the Client's needs exceed the allotment in two consecutive months, Profitable Media will require the Client to move to a larger plan (higher cost for more hours per month). The Client and Profitable Media both acknowledge that there is a learning curve associated with Profitable Media on-boarding a new Client, becoming familiar with the Client's systems, funnels, and environments. Profitable Media typically absorbs some amount of hours for this purpose that are not charged against the Client's first month's billing. Profitable Media may, at its discretion, bill for these hours if the on-boarding is particularly cumbersome. Profitable Media will, of course, communicate regularly in this regard as it does in all respects.

Project Initiation and payment:

The project will be initiated upon the client's countersignature on this proposal. The initial payment for the first month is due in full prior to commencing work. The client will be billed for the first month, which effectively sets the stage for an ongoing monthly plan. Please note that this billing process implies that an automatic charge will be processed, negating the requirement for manual payments each month."

Proposed Service Assumptions

Project scope, price and delivery timelines are outlined in this document. Unless specifically set forth herein, the price and timelines are estimates. Requested changes may affect cost and timing. So, too, could Client's failure to timely meet its obligations. Should the scope or schedule need to be modified at any time during the project's course, Profitable Media will obtain the Client's approval of the change in timing and the additional fees. Profitable Media's typical hourly rate is \$__ per hour.

It is the Client's responsibility to:

- Designate one person who will be Profitable Media's primary contact person for the necessary approvals and manage the Client's internal resources for the project.

- Timely complete tasks and deliverables assigned by Profitable Media to meet the project timeline
- Pay for the use rights and/or licensing rights for any third party applications, images or other third party services requested by the Client or required by the project
- Prioritize tasks for the Profitable Media team, to the extent possible, by

It is Profitable Media's responsibility to:

- Provide its (development) services during regular business hours as set forth on Profitable Media's website.
- Acknowledge service tickets within three business days, with a plan for resolution (the plan to depend on the severity and complexity of the issue)

Excluded services are:

- Client training. Profitable Media remains available to provide a separate proposal for client training.
- Web hosting. Profitable Media remains available to provide a separate proposal for hosting on a compatible ISP from its suite of offerings.
- Off-hour work (evenings, weekends, urgent requests, rush jobs). Profitable Media can provide its billing rates for these special services, which would need pre-approval from Profitable Media and Client management.

Intellectual Property:

Subject to final payment, Client will become the sole and exclusive owner and have the entire rights, title and interest in and to the deliverables, including but not limited to, any and all intellectual property rights in, to and under the deliverables, which shall for all purposes be deemed a "work made for hire" under the copyright laws of the United States of America. The Client understands that it is not gaining any rights in Profitable Media's prior work product, and that Profitable Media retains the rights to the residual knowledge it gains while working on Client's projects, so long as it protects Client's confidentiality and proprietary information. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of the Service Provider except as expressly stated herein. In the case of a breach by the Hiring Party, including but not limited to failing to pay the final invoice when due, Service Provider may revoke such license.

Profitable Media represents that its deliverables will not knowingly include any confidential or proprietary information of any third party; will not knowingly be developed from or in response to any specifications or requests from any third party, that, to the best of Profitable Media's knowledge, they shall not infringe the intellectual property rights of any third party; and that they shall not knowingly arise from or be connected in any way with any misappropriation of any trade secrets or other intellectual property rights of any third party. Client is responsible for ensuring that use of Profitable Media's deliverables with third-party applications does not cause infringement. Profitable Media does not provide licensing and registration services.

Termination:

Either party may terminate the project upon 30 day advance written notice to the other party. Upon termination, the client is obligated to pay fees and expenses incurred up to the effective date of termination.

Jurisdiction:

Any dispute that arises out of this agreement first shall be resolved by mediation, if possible. The parties are aware that mediation is a voluntary process and so pledge themselves to cooperate fully with the mediator in an attempt to reach a satisfactory settlement.

The parties shall split the cost of the mediation equally. If mediation is not possible, any dispute arising out of this agreement or their business shall be submitted to arbitration. The arbitration shall be held before a single arbitrator in accordance with the rules of the American Arbitration Association then in force and effect. The arbitration, including the rendering of any award, shall take place in San Jose, California. The arbitrator shall apply the substantive law of the State of California. Judgment upon the award of the arbitrators may be entered into in any court having jurisdiction thereof. The prevailing party shall be awarded a reasonable sum for its attorney's fees.

Proposal Validity and Scope Changes

This proposal is valid for 14 days from the date of issuance.

Signoff & Acceptance

We look forward to working with you and your team on this project along as well as forming a long lasting and lucrative relationship.

If you have any questions, please do not hesitate to contact us at (408) 596-4676 or info@profitablemedia.com.

If the above proposal and terms are acceptable, please click below to sign electronically.
